EDITOR'S NOTEBOOK

Dear Archie Readers,

Now that summer is in full swing, I'd like to clue you in to some upcoming issues and stories. What better way to relax, than to kick back on the beach, in your backyard, or out in the wilderness, with your favorite Archie comic?

However, even though you guys are still enjoying your vacation, some people, namely Veronica, is anticipating going back to school. I know that sounds a little out of character for her, but this time Veronica has some serious plans. It all starts when she has a falling-out with her friends. So Miss Money-Bags decides to leave her "commoner" friends and study with the elite crowd at a private school in Europe. However, with some assistance from Mr. Lodge, Archie and the rest of the Riverdale crew set out to convince Veronica to come back to Riverdale High. The question is, will they be successful? The story is called "Au Revoir, Veronica." All this and more in ARCHIE & FRIENDS #37. Look for it next month.

"Take the Mummy and Run!" No, it's not another "Mummy" movie, but is the title of the feature story in CHERYL BLOSSOM #26. In this story, Cheryl is hosting the opening of a new Egyptian wing and collection, sponsored by her parents, at the museum. But beware. A renowned archaeologist, who is a consultant to the collection, may not be all he seems and it may be too late before the Blossom family finds out. If they were smart, they'd ask their mummy for some advice. Wrap yourself up in this issue when it goes on sale in July.

In SABRINA THE TEENAGE WITCH #30, Salem is a little jealous when Sabrina brings home a pet goldfish. In fact, when he looks in that fish bowl, he sees his next seafood dinner. Now this is no ordinary goldfish, as Salem finds out. "Panning for Goldfish" is not going to be as easy as Salem thinks. You'll have an entire new outlook when it comes to pet fish after you read this story.

Mercury By Tiffany Chan Roslyn Heights, NY

Mercury is the planet closest to the sun. It is also the smallest of the inner planets in the solar system. The planet Mercury is less than half the size of earth and it is very dense. Its crater-ridden surface is very hot during the day and it is very cold during the night. The planet Mercury orbits the sun once every 88 days. One day on Mercury equals 50 days on Earth. The planet Mercury has almost no atmosphere because of its surface heat and low gravity.

Mount Rushmore By Oksana Zvirik Cleveland, OH

The four faces that are carved on Mount Rushmore are: George Washington, Thomas Jefferson, Abraham Lincoln, and Theodore Roosevelt. It is 5,725 feet high, and each face is about 60 feet from forehead to chin. The work was designed by the sculptor Gutzon Borglum, who began work on it in 1927. The first figure, that of Washington, was dedicated on July 4, 1930. After Borglum died in 1941, work on the memorial continued until October under the direction of his son Lincoln. The last sculpture, of Roosevelt, was never quite completed. Fourteen years passed between the beginning and end of the project, of which only about 6-1/2 years were spent in actual work. The total cost was almost \$1 million, of which 84% came from the federal government and the rest from donations.
